

INSTRUCTIONS FOR ASSEMBLING & DISMANTLING YOUR TREE

Assembling for Display:

*Remove the white twist ties that are holding the outer edge of the tree panels together.

*Carefully open up the tree making sure that the bottom row of lights is free and not caught underneath the bottom edge of the panels.

*Fan the two outer panels around until they meet. Attach together in several places with the green twist ties beginning at the top and continuing to the bottom.

Dismantling and Storage:

*Reverse the above procedure.

*Tree falls flat for storage.
